Biography

Cortnie Abercrombie is a top advisor to Fortune 500 companies on artificial intelligence strategy, development, operating models and building trustworthy AI cultures. She is also Founder and CEO of AI Truth, a nonprofit dedicated to responsible creation and use of AI. Prior to that she led a Shark Tank style AI solutions incubator at IBM and created one of the world's largest Chief Data and Analytics Officer communities. She was announced as one of "12 Brilliant Women in Artificial Intelligence & Ethics to Watch," and "Top 100 Innovator in Data and Analytics." She's a founding member of the editorial board of Springer Nature's AI and Ethics Journal as well as board member of the University of North Texas College of Information. She's the author of the newly released book, *What You Don't Know: AI's Unseen Influence on Your Life and How to Take Back Control.*
